

## Road Traffic Safety Policy

MIAL is committed to ensure safety of all users of CSI Airport landside roads.

MIAL aims to continually improve the road traffic management system for managing the CSIA landside roads by following means:

- Ensuring appropriate road design, development, repair, operation and maintenance.
- Setting Road Traffic Safety objectives and Road Traffic Safety targets to prevent injuries to passengers while using the CSIA landside roads
- Recognize and reward outstanding safety performance and discourage unacceptable safety behaviours
- Carry out audits regularly to check adherence to laid down road traffic safety standards
- Comply with all applicable legal requirements for road traffic safety and such other requirements to which MIAL subscribes
- Review the effectiveness of road traffic safety management system on a regular basis and take all necessary steps to achieve continual improvement
