

Chhatrapati Shivaji Maharaj Mumbai International Airport reintroduces 5 new destinations

With the upsurge in passenger traffic and states easing travel restrictions, Mumbai International Airport reintroduced five domestic routes to Tier II markets. These five destinations include Bareilly, Vishakhapatnam, Tirupati, Ajmer and Porbandar, adding a major boost in connecting Mumbaikars to the smart cities of the country during these uncertain times.

With the Government extending flying capacity to 65 per cent, Mumbai International Airport has witnessed a surge in travel to the Tier II markets. With states relaxing travel guidelines and offices opening, the migratory travellers are travelling back to their work destination. The initiative undertaken by the Government is in light of the upward passenger trend as flying emerges as a preferred, safe and time-saving mode of transport. Besides, the airport witnessed a surge in passenger travel to the Tier II market in July, with

sectors such as Hyderabad, Goa and Ahmedabad saw 7%, 5% and 5% passenger traffic respectively to these markets. Furthermore, during this period, the airport observed domestic carriers such as Indigo, Air India and GoAir catering to over 3,50,000, 80,000 and 46,000 passengers through approximately 2,700, 850 and 400 flights respectively to the Tier II markets.

With an aim to maximise passenger delight, Mumbai International Airport continues to create distinctiveness through its experiential offering while withstanding the challenges due to the pandemic. Acting as a key driver in promoting domestic tourism and continuing to work in conjunction with airline operators, Mumbai International Airport offers world-class services and facilities to its passengers and leaves them with a memorable experience of their journey through the airport.

About Mumbai International Airport Limited (MIAL):

Mumbai International Airport Limited (MIAL) is managed by Adani Airport Holdings Limited (AAHL), a subsidiary of Adani Enterprises, the flagship company of the globally diversified Adani Group. MIAL is a Public-Private Partnership (PPP) venture between AAHL, holding a majority stake of 74%, and the Airports Authority of India, holding the rest 26%. AAHL aims to converge India's biggest cities in a hub and spoke model through the Group's proven strength in developing and managing complex transport & logistics hubs.

With a strong understanding of modern-day mobility requirements, the Adani Group's vision for MIAL is to reinvent Mumbai International Airport as India's biggest aerotropolis, where the traditional airport nucleus of passenger and cargo infrastructure will be reinforced by interdependent clusters of commercial and residential infrastructure to create the nation's busiest airport ecosystem.

MIAL has been further envisioned as a global air-travel focal point where domestic and international flyers actively engage in business and leisure supported by metropolitan expansion that catalyses aviation-linked businesses and employment opportunities. At MIAL, we intend to create distinctiveness with an experiential offering that puts Mumbai first.
